# The Art of Capturing Love

## My Philosophy

Every wedding is a story, not only told through moments, but through emotion, atmosphere, and connection.

At Kuenzli Wedding Art, I believe that the most meaningful memories deserve more than documentation, they deserve to be transformed into art.

As a Swiss-Ecuadorian artist with a background in fine art and modern visual storytelling, my work is dedicated to capturing the essence of your day: the quiet glances, the energy of your celebration, and the beauty of shared presence. Through live painting and curated artistic experiences, I create pieces that go beyond the visible, translating emotion into something tangible and timeless.

Each artwork is created with intention, sensitivity, and a deep respect for your story. Whether painted live during your wedding or developed as part of an interactive guest experience, every piece becomes a reflection of your unique connection.

Kuenzli Wedding Art is not only about what is created, but how it is experienced, by you, and by those who celebrate alongside you. The result is more than a memory. It is a lasting expression of your love.

# Hi, I am Steph

An unforgettable moment, captured forever.

I'm Stephanie Künzli Ycaza, a professional live wedding painter based in Switzerland, dedicated to transforming your most meaningful moments into timeless works of art.

With over 10 years of experience in the wedding industry, I bring not only artistic expertise, but a deep understanding of the rhythm, emotions, and unique flow of a wedding day. Alongside my work as a painter, I also work as a wedding photographer, a perspective that allows me to intuitively capture composition, light, and those fleeting, in-between moments that often go unnoticed.

My approach goes beyond simply recreating a scene. I capture the atmosphere, the subtle emotions, and the unique energy of your day, the quiet glances, the movement, the light, and the feeling that makes your wedding truly yours.

Whether you are saying "I do" in the Swiss Alps, by a serene lakeside, or on a sunlit Tuscan estate, I paint live on-site as your celebration unfolds. Guests are invited to witness the creative process, watching your story come to life on canvas throughout the day.

Each artwork is then carefully refined in my Basel studio using premium oil paints, allowing for depth, detail, and a level of finish that ensures your painting will last for generations.

The result is more than a painting.

It is a living memory, translated into art, created with intention, and designed to be cherished for a lifetime.

## How It Works

Your wedding art experience is designed to be seamless, personal, and beautifully integrated into your celebration.

We begin with a consultation to understand your vision, style, and the services you wish to include: whether live painting, guest illustrations, workshops, photography, or content creation.

Based on this, a tailored concept is created, aligning every artistic element with your wedding atmosphere and flow.

On your wedding day, I, or my team, if booked - work discreetly and professionally on-site, creating art and capturing moments without disrupting your celebration, while offering a unique experience for your guests.

After the event, all artworks are carefully refined in my Basel studio, and media content is professionally edited to ensure a high-quality, timeless result.

Your final pieces are then delivered with care, ready to be cherished for a lifetime.
